Guests-Gary Noe, Melissa McCarville, Geoff Bates

Points of Discussion:

- 1) Discussed cost of the playground equipment that Kim Kyle priced for us which is around \$64,814.00 and the cost to install would be \$12,880.00.
- 2) A concrete base and interlocking padded tiles would cost considerably more. Still checking out the options for the playground area (ground cover).
- 3) Pavilion-cost for the small covered pavilion (28 feet wide) would be \$20,644.00 plus \$13,000.00 for installation and the concrete.
- 4) A large pavilion (40 ft. wide) is \$29,735.00 plus\$ 19,840.00 for installation and the concrete.
- 5) Gary Noe mentioned that he does business for the current ball programs with Best Sports and that he can usually get a good discount. We will consider using them for all the equipment that we need to purchase.
- 6) Discussed having a Registry on the City of Farmington Website. Similar to a bridal registry but citizens can pick from a list of items needed or they can donate money for the ballpark project.
- 7) Listed are just a few of the items that will probably be on the City of Farmington website:
 - Sets of bases, home plate, fence toppers, hanging bat racks, chalking line painter, grills, picnic tables, trash cans, mowers, weed eaters, wheelbarrows, hand drags for baselines, field rakes, etc.

Re: Request approval of low bid for drainage work on Northaven

Date: June 8, 2011

Recommendation

City staff recommends approving accepting the low bid of \$23,130 from Fochtman Enterprises.

Background

This project has been discussed for several years. Garver Engineering prepared plans and specs. This project includes adding several ditches to an area where considerable flooding occurs. The project was advertised per requirements and only one bid was received.

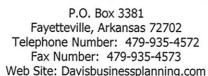

Discussion

Fochtman has done several jobs for us in the past several years. We are always pleased with their work and their timeliness.

Budget Impact

This project will be paid out of the Street Department and is a budgeted item.

SUBJECT:

Strategic Plan Update

Dear Ms. McCarville:

Davis Business Planning is pleased to submit the attached contract for Strategic Planning services. This proposed contract was developed in response to conversations with Farmington City Council and the Mayor at Farmington's May meeting.

I draw your attention to page 6 of the enclosed agreement that lists the tasks and timeline for obtaining input for this process. It is very important that a wide variety of input be sought and obtained in order for ensure community buy-in. As part of the proposed process, individual and group interviews will be conducted with various stakeholders, a facilitated meeting with the key stakeholders is proposed for the purpose of refining the input for a community-wide survey. The survey is to be distributed to Farmington residents and Farmington School district patrons that do not live within Farmington city limits. Once the data from the interviews and survey has been assembled and analyzed there will be two (2) facilitated meetings with the key stakeholders to prioritize the findings and create action plans to implement the prioritized findings.

Representatives of Davis Business Planning intend to be at the June 13 meeting to answer any questions concerning the strategic planning process.

Again, Davis Business Planning thanks Farmington for the opportunity to provide these services.

Sincerely,

Stephen L Davis

Re:

Request approval of bid for lights and installation for Farmington Sport's Complex

Date: June 9, 2011

Recommendation

City staff and our consulting engineer recommend approval of the bid from Musco Lighting for \$368,000 plus tax (initially we will have to pay \$37,720 in tax, but we will get a rebate for \$37,463.75*) and Pick-It Construction for \$179,350 for a total of \$585,070.

Background

A few weeks ago you gave approval to bid the remaining items for the Sport's Complex. Lighting was included in that approval.

Discussion

Musco Lighting and Pick-It Construction are a part of the TIPS and TAPS program (as described in item #12 on the agenda) which is approved by Arkansas DF&A as an inter-local purchasing system. Because of this relationship we do not need to "bid" this purchase. Musco indicated that it would take 3 to 4 weeks for the lights to come in so we wanted to approve the purchase now so that the order could be placed. Musco is working in cooperation with Pick-It Construction to provide the installation of the lights. Pick-It is covered under TIPS and TAPS agreement and will be using Hill Electric to complete the work. In addition to the electric for the lighting, this bid covers electrical needs for the entire project.

Budget Impact

This purchase will be paid for out of the bond proceeds set aside for this project.

*We only have to pay tax on the first \$2,500 of any single purchase. Our actual tax liability after rebate will be \$256.25.

City Business Manager Report May 2011 City Council Meeting

- I attended the kick-off meeting for FEMA related to our recent storm damage. They will be sending a project manager here to tour our area and help us with the damage assessment. Until they come and visit I will not know the extent of the reimbursement we could expect. We will be asking about mitigation projects as well as projects related to damaged streets and drainage. If you have questions about a specific area please let me know.
- The planning commission has decided to take on the responsibility of completing a Master Trails Plan for the city. As we venture further into this process your thoughts and comments would be welcomed. Planning Commission meets the 4th Monday of the month, please plan to join us. If you cannot make those meetings I can pass on your written or verbal comments.
- As the storm season gets closer make sure to tell you constituents about Code Red. We can help them sign up or they can go to the link on our web site. This is especially important as it relates to our recent storm activity.
- Jimmy, Geoff Bates and I had our initial meeting with the state recreation grant folks. We will begin putting together the proper documentation to begin that process.

May 2011 monthly council report for Mayor and City Council

May was a very different month for the fire department, we only had fifty-three documented calls but we had a lot of welfare calls that wasn't documented. The month was filled with calls derived from all the water and flooding problems that we received through the month of May. Peachtree Village had its share of problems with record breaking flooding. Peachtree had the worst flooding that they had ever seen then after they moved the residents and replaced all the sheet rock and carpet and things like that, we received another record breaking flood. They now have to replace all the sheet rock and carpet all over again. Over a year ago, I met with the head management team in charge of Peachtree Village and gave them the solution, in my opinion to the flooding issue and they didn't do it because it would cost them a lot of money and they were not interested in doing it. I suggested a retaining wall on the East side with some flood gates and was told the other day that they were going to do that now if the engineers agreed that that would help.

The fire department had several swift water rescues through the floods, some rescued from their cars when they drove out in the flooded roads and streets. We also had to rescue some out of their houses and apartments.

We also had several of my firefighters go to Joplin Mo. During their crisis, the devastation was unimaginable and hard to deal with at times. The team also went to Franklin county for rescues where the tornado hit there also, these were on the county USAR team, which is made up of mostly Farmington Firemen on the West side of the county.
